

SENIOR EXPLOITATION ENGINEER

Baytex Energy Corp. is an aggressive, growth oriented Senior Oil and Gas Company, which has found continued success from internally generated exploration and development projects and accretive acquisitions. Baytex is looking for a full time **Senior Exploitation Engineer** with a minimum of 5 years of experience.

Reporting to the Vice President, Alberta/BC Business Unit, this person will be responsible for formulating and executing reservoir development strategies and providing reservoir engineering support to maximize economic recovery from specific Baytex operated assets.

Duties will include but are not limited to:

- Monitor and evaluate reservoir performance to optimize production and recovery (e.g. Well testing, decline analysis, reservoir simulation).
- Work in a multi-discipline team to identify, evaluate, prioritize, plan and execute exploitation, workover, and acquisition opportunities and low risk exploration.
- Provide mentorship to junior reservoir and production engineers.
- Develop production, recoverable reserve and economics forecasts for internal budgets, acquisitions and development opportunities.
- Ensure corporate compliance with regulatory bodies in areas relating to drilling, reservoir depletion, and recovery schemes.
- Represent Baytex interests in relevant joint venture projects.

The ideal candidate will have a B.Sc. or M.Sc. degree in Engineering from a recognized institution, APEGGA professional status, and at least seven years of reservoir experience including Reservoir assessments, development planning/exploitation, economic evaluation, well testing, waterflooding and simulation. Also:

- Strong interpersonal and communication skills. Negotiating experience an asset
- Works independently and as part of a multi-disciplinary team
- Strong analytical skills
- Ability to manage time and produce results under tight deadlines
- Proficient in the use of AFE Navigator, Excel, Accumap, Value Navigator and PVR
- Field experience is a definite asset

Closing Date: March 15, 2012
